

Material Safety Data Sheet

Page: 1 of 5

Infosafe No™ LPYKR

Issue Date : February 2010

ISSUED by SUGAR

Product Name MAPLE FLAVOURED SYRUP

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name	MAPLE FLAVOURED SYRUP
Company Name	Sugar Australia Pty Limited (ABN 82 081 245 169)
Address Telephone/Fax Number (24 hour a day available) Recommended Use	265 Whitehall St Yarraville VIC 3013 Australia Tel: +61 3 9283 4558 Fax: +61 3 9689 4085 Emergency Phone Number: Poisons Information Centre 13 11 26 As an ingredient in or as a direct food.
Other Information	This Material Safety Data Sheet (MSDS) is issued by the Supplier in accordance with the Code and guidelines from the Australian Safety and Compensation Council (ASCC, formerly National Occupational Health and Safety Commission - NOHSC). The information in it must not be altered, deleted or added to. The Supplier will not accept any responsibility for any changes made to its MSDS by any other person or organization. The Supplier will issue a new MSDS when there is a change in ASCC standards, guidelines, or regulations and/or a

material change in product specifications.

2. HAZARDS IDENTIFICATION

Hazard	NON-HAZARDOUS SUBSTANCE.
Classification	NON-DANGEROUS GOODS.
	Hazard classification according to the criteria of NOHSC.
	Dangerous goods classification according to the Australia Dangerous Goods Code.
Other Information	This product is a well known ingredient in food and beverages and this Material Safety Data Sheet is concerned only with occupational exposures.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Ingredients	Name	CAS	Proportion
	Sucrose	57-50-1	~28 %
	Glucose	50-99-7	~24 %
	Water	7732-18-5	24 %
	Fructose	57-48-7	~24 %
	Maple flavour		<2 %
	Caramel colour		<2 %

4. FIRST AID MEASURES

Inhalation	Remove to fresh air.
Ingestion	Give water to drink.
Skin	Wash thoroughly with soap and water.
Eye	Flush thoroughly with copious amounts of running water. If symptoms persist, seek medical attention.
Advice to Doctor	Treat symptomatically. People with diabetes may need stabilisation.

5. FIRE FIGHTING MEASURES

Suitable	Water, dry chemical, carbon dioxide and foam.
Extinguishing Media	
Hazards from	With heat, product burns/oxidises to form carbon, carbon monoxide and or
Combustion	carbon dioxide, and smoke.
Products	
Specific Hazards	Heating of containers can cause expansion or decomposition leading to rupture.
Decomposition	170-180°C
Temp.

Product Name MAPLE FLAVOURED SYRUP

Precautions in connection with Fire	Fire-fighters should wear full protective clothing and self contained breathing apparatus (SCBA) operated in positive pressure mode.
6. ACCIDENTAL	RELEASE MEASURES
Emergency Procedures	Wear appropriate personal protective equipment and clothing to minimise exposure. Increase ventilation. Wet sweep, vacuum or shovel into suitable labelled containers. Wash area with water ensuring all wash water is captured and discharged to an approved treatment facility. Notify relevant waste or environmental authority as required by the site's EPA licence, trade waste agreement and/or State legislation.
7. HANDLING AN	D STORAGE
Precautions for Safe Handling	Material can ferment if excessive moisture contamination is allowed. Fermentation can yield carbon dioxide with possible traces of ethanol or volatile fatty acids (e.g. acetic, propionic, lactic, or butyric) and if exposed to a spark or flame may result in an explosion. Fermentation may also occur in dilute surface layers formed by condensation from the headspace above the liquid. These conditions should be avoided. If maintenance of a storage tank requires entry by personnel, confined space precautions should be complied with. Insufficient oxygen may be present in vessels containing the product due to the generation of gases during fermentation. Keep containers sealed when not in use. Establish good housekeeping practices. Maintain high standards of personal hygiene ie. Washing hands prior to eating, drinking, smoking or using toilet facilities.
Conditions for Safe Storage	This product should be stored in its factory packaging in a dry area. This product in bulk should be stored in a vented tank designed to contain a material with a specific gravity of 1.3 or greater. Localised microbiological deterioration may start in areas where the liquid becomes diluted. Storage above 40°C can lead to spontaneous decomposition.
Other Information	For further information refer to Sugar Australia's 'Liquid Sugar Storage and Handling in Bulk'
8. EXPOSURE CO	NTROLS/PERSONAL PROTECTION
National Exposure Standards Biological Limit Values	No exposure standards have been established for the mixture by the National Occupational Health & Safety Commission (NOHSC). Avoid liquid mist generation. No Biological limit available.
Engineering Controls	General room ventilation should be adequate, but local mechanical ventilation may be required if liquid mists are generated, particularly in confined spaces. Work areas should be cleaned regularly by wet sweeping or vacuuming.
Respiratory Protection	If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable mist/particulate filter should be used. Reference should be made to Australian/New Zealand Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.
Eye Protection	Safety glasses with side shields or chemical goggles should be worn if splashes are likely to occur. Final choice of appropriate eye/face protection will vary according to individual circumstances. Eye protection devices should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.
Hand Protection	Wear gloves of impervious material(such as PVC coated fabric). Final choice of appropriate gloves will vary according to individual circumstances i.e. methods of handling or according to risk assessments undertaken. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.
Personal Protective Equipment Body Protection	If engineering controls and work practices are not effective in controlling exposure, then personal protective equipment may be required. Skin Protection: Direct skin contact should be avoided by wearing long sleeved shirts and long trousers, a cap or hat, and gloves (PVC coated fabric or equivalent AS 2161). Work clothes should be washed regularly.

9. PHYSICAL AND CHEMICAL PROPERTIES

Page: 3 of 5

 Infosafe No™ LPYKR
 Issue Date : February 2010
 ISSUED by SUGAR

 Product Name
 MAPLE FLAVOURED SYRUP

Appearance	Light to dark brown liquid
Odour	Maple odour
Decomposition Temperature	170-180°C
Melting Point	Not available
Boiling Point	>105°C
Solubility in Water	Totally miscible
Specific Gravity	1.38
pH Value	Not available
Vapour Pressure	Not available
Vapour Density (Air=1)	Not available
Evaporation Rate	Not available
Flash Point	Not applicable
Flammability	Not flammable however, following evaporation of water will burn in fire condition.
Auto-Ignition	500°C after evaporation of water.
Temperature Flammable Limits - Lower	Not applicable
Flammable Limits - Upper	Not applicable
Solubility in other solvents (kg/m3)	Not applicable

10. STABILITY AND REACTIVITY

Chemical Stability	Stable
Conditions to Avoid	Heat, flames and other ignition sources.
Incompatible	Incompatible with oxidising agents (eg. peroxides).
Materials	
Hazardous	Carbon dioxide and carbon monoxide may form when heated to decomposition.
Decomposition	
Products	
Hazardous	Will not occur.
Polymerization	

11. TOXICOLOGICAL INFORMATION

Toxicology Information	Toxicity Data: Non-toxic - a foodstuff Sucrose: LD50 (Ingestion) : 29,700 mg/kg (rat) Glucose: LD50 (Ingestion) : 25,800 mg/kg (rat)
Inhalation	No health effects under normal conditions of industrial use but when aerolised into liquid mists may cause irritation to nose and throat.
Ingestion	No health effects under normal conditions of industrial use, but ingestion may destabilise people with diabetes.
Skin	Skin contact may result in mild skin irritation.
Eye	Irritating to the eyes and may cause watering and redness.
Chronic Effects	Repeated skin exposure to this product may result in skin irritation and if persistent, dermatitis which may become infected.

12. ECOLOGICAL INFORMATION

Ecotoxicity	Non-toxic to aquatic and terrestrial organisms. Sucrose is an oxygen depleting
	substance in aquatic environments.
Persistence /	Not available
Degradability

Infosafe No™ LPYKR

Issue Date : February 2010

ISSUED by SUGAR

Product Name MAPLE FLAVOURED SYRUP

Mobility Not available

Environ. Protection

Do not discharge product unmonitored into the environment.

13. DISPOSAL CONSIDERATIONS

Disposal Considerations Product can be treated as a common waste for disposal to an organic recycler or into a landfill site in accordance with relevant Authority guidelines. Note Biochemical Oxygen Demand load of sugar solutions in waste water streams. Return product to supplier for reuse / recycling if possible. Consult supplier for recycling options. Recycle containers if possible, or dispose of in an authorised landfill. Transportation of wet sugar waste may require Waste Transport Certification. Refer to your local Environment Protection Authority.

14. TRANSPORT INFORMATION

Transport	Not classified as a Dangerous Good, according to the Australian Code for the
Information IMDG Marine	Transport of Dangerous Goods by Road and Rail Not a marine pollutant.
Pollutant (MP)	

15. REGULATORY INFORMATION

 Poisons Schedule
 Not Scheduled

 AICS (Australia)
 All components of this product are listed on the Australian Inventory of
Chemical Substances (AICS), or otherwise are in compliance with the NICNAS
requirements.
