

Material Safety Data Sheet

Product Code 17N94AS
Revision Date 09/11/2006
Supersedes 03/05/2003

1. IDENTIFICATION OF THE SUBSTANCE AND OF THE COMPANY

Identification of the Substance:

Trade Name: CITRONELLOL AJ, FCC

Chemical Name: 6-OCTEN-1-OL, 3,7-DIMETHYL-

Use of the Substance: Flavor and fragrance ingredient

Company Identification:

Millennium Specialty Chemicals Inc.
a Lyondell Company
P.O. Box 389
Jacksonville, FL 32201, USA
Telephone: 904-768-5800
Fax: 904-768-2200

Lyondell European Headquarter
Millennium Chemicals
C/O N.V. SCM EUROPE S.A.
Avenue Ariane, 5/ 2F
B-1200 Brussels-Belgium
Telephone: +32.2.774.25.10 Fax: +32.2.774.25.77

Emergency Telephone: CHEMTREC: (USA, Canada): 1-800-424-9300 ; (All Others): 703-527-3887

2. COMPOSITION/INFORMATION ON INGREDIENTS

CAS Number	EINECS Number	Ingredient	Typical Weight %
106-25-2	203-378-7	NEROL	1.20
106-22-9	203-375-0	CITRONELLOL, BETA-	94.90
106-21-8	203-374-5	3,7-DIMETHYL-1-OCTANOL	1.80

EU Classifications (refer to Section 16 for descriptions):

Symbol(s)
Xi,N

Risk Phrase Code(s)
R38-43-51/53

Safety Phrase Code(s)
S24-37-61

3. HAZARDS IDENTIFICATION

This substance is classified as dangerous according to EU Directive 1999/45/EC.

Potential Health Effects

Acute Health Effects:

Irritating to skin. May cause sensitization by skin contact.

Chronic Health Effects:

Not Determined.

4. FIRST AID MEASURES

The information contained in this MSDS relates to this specific product. The information may not be valid if the product is used in combination with any other materials or in any process. It is the user's responsibility to satisfy himself as to the suitability and completeness of this information for his own particular use.

Material Safety Data Sheet

Product Code	17N94AS
Revision Date	09/11/2006
Supersedes	03/05/2003

Inhalation:

Seek fresh air immediately. If breathing is difficult, seek medical advice.

Eye Contact:

Flush with water for at least 15 minutes. If irritation develops, get medical attention.

Skin Contact:

Remove contaminated clothing. Wash affected areas with plenty of soap and water. If irritation develops, seek medical advice.

Ingestion:

Drink lots of water to dilute substance. Get medical attention immediately or contact a poison control center for advice.

5. FIRE FIGHTING MEASURES

Suitable Fire Extinguishing Media:

Carbon dioxide, dry chemical, foam.

Unsuitable Fire Extinguishing Media:

If water must be used, use as a spray only.

Special Exposure Hazards:

Avoid heat, sparks and open flames.

Hazardous Decomposition Products:

Carbon dioxide, carbon monoxide, acrid fumes.

Special Protective Equipment for Fire Fighters:

Standard turnout gear for combustible liquids.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions:

Standard turnout gear for combustible liquids.

Environmental Precautions:

This product is toxic to aquatic organisms. Do not allow the substance or solutions of the substance to be discharged into lakes, streams, ponds or public waters.

Cleanup Procedures:

Small spills should be absorbed by dirt, sand, vermiculate, or other suitable absorbent. Large spills may be pumped (if liquid) or scooped (if solid) into closed containers for recovery or disposal.

7. HANDLING AND STORAGE

Handling:

Wear safety glasses or goggles, rubber gloves and apron when handling material. If transferring to or from the container, use proper grounding procedures.

The information contained in this MSDS relates to this specific product. The information may not be valid if the product is used in combination with any other materials or in any process. It is the user's responsibility to satisfy himself as to the suitability and completeness of this information for his own particular use.

Material Safety Data Sheet

Storage:

Do not store in close proximity to excessive heat, open flames, strong acids or strong bases. To minimize product degradation, avoid prolonged exposure of the substance to air. Keep container tightly closed when not in use.

Ventilation:

Mechanical exhaust may be needed in confined and poorly ventilated areas.

Safety Stations:

An eyewash station and a safety shower should be readily available and clearly marked.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Limits:

None found.

Exposure Controls:**Respiratory Protection:**

A respirator is not normally required. If vapor concentration is suspected to be high, use a NIOSH approved organic vapor respirator

Eye Protection:

Wear safety glasses or goggles.

Hand Protection:

Wear standard industrial type rubber gloves.

Skin Protection:

A rubber apron is recommended when handling the material for extended periods of time.

Personal Hygiene:

Wash hands and other exposed areas of skin with soap and water after handling the material.

Environmental Controls:

No environmental exposure controls required under Community environmental protection laws.

9. PHYSICAL AND CHEMICAL PROPERTIES

General Information:**Property****Result**

Appearance:

Nearly colorless liquid.

Odor:

Floral.

Important Health, Safety and Environmental Information:**Property****Result**

pH:

Not determined.

Boiling Point:

425F (218C) (Thermal Analyzer)

Flash Point:

212F (100C) (Tag Closed Cup)

Melting Point:

Not determined

The information contained in this MSDS relates to this specific product. The information may not be valid if the product is used in combination with any other materials or in any process. It is the user's responsibility to satisfy himself as to the suitability and completeness of this information for his own particular use.

Material Safety Data Sheet

Flammability:	Not determined.
Explosive Properties:	Not an explosive.
Oxidizing Properties:	Not Determined.
Vapor Pressure:	ca. 0.1 mmHg @ 20 C
Solubility in Water (Weight%):	Not determined
Solubility in Alcohol(Weight%):	100
Fat Solubility:	Not Determined.
Partition Coefficient (n-Octanol/Water):	Not determined
Viscosity:	Not determined.
Vapor Density (air=1):	CA.5.4
Evaporation Rate (Butyl Acetate=1):	Not determined.
Autoignition Temperature:	Not Determined.
Volatiles (Weight%):	0
Specific Gravity:	0.853 @ 25 C

10. STABILITY AND REACTIVITY

Stability:

Substance is stable and unreactive under conditions of normal use.

Conditions to Avoid:

Prolonged or excessive heat and/or exposure to air may cause non-hazardous decomposition and/or oxidation of the substance.

Materials to Avoid:

Avoid contact with strong acids, bases and materials that react with unsaturated alcohols.

Hazardous Decomposition Products:

Carbon dioxide, carbon monoxide, acrid fumes.

11. TOXICOLOGICAL INFORMATION

Primary Target Organs:	Skin
Primary Entry Route(s):	Skin.
Medical Conditions Aggravated by Overexposure	No known conditions.

Acute Toxicity:

<u>Parameter</u>	<u>Result</u>
Acute Oral Toxicity:	LD50 (rat): 3450 mg/kg.
Acute Inhalation Toxicity:	Not determined.
Acute Dermal Toxicity:	LD50 (rabbit): 2650 mg/kg
Eye Irritancy:	Contact with the undiluted material may cause irritation.
Dermal Irritancy:	Irritating to skin.
Skin Sensitization:	May cause sensitization by skin contact.
Mutagenicity:	Not determined
Teratogenicity:	Not determined.

12. ECOLOGICAL INFORMATION

Ecotoxicity:	TOXIC TO THE AQUATIC ENVIRONMENT.
--------------	-----------------------------------

The information contained in this MSDS relates to this specific product. The information may not be valid if the product is used in combination with any other materials or in any process. It is the user's responsibility to satisfy himself as to the suitability and completeness of this information for his own particular use.

Material Safety Data Sheet

Mobility: Not determined.
Persistence and Degradability: Not determined.
Bioaccumulation Potential: Not determined.
Ozone Depleting Substances: None.
Volatile Organic Compounds: None.

13. DISPOSAL CONSIDERATIONS

Disposal Methods: Product is toxic to aquatic organisms. Do not discharge to the aquatic environment. This material, if discarded, is not considered a hazardous waste by EPA regulations 40 CFR 261.

Safe Handling of Wastes: Refer to Section 8 for information pertaining to personal protective equipment and exposure controls when handling this material for disposal.

Community Provisions: Dispose of this material at a local, state or federally approved landfill, incinerator or recovery facility.

14. TRANSPORT INFORMATION

DOT Non-Bulk Shipping Name: Environmentally Hazardous Substance, Liquid, n.o.s.(Citronellol), 9, UN3082, PGIII

DOT Bulk Shipping Name: Environmentally Hazardous Substance, Liquid, n.o.s.(Citronellol), 9, UN3082, PGIII

DOT Label(s): Dangerous for the Environment

ADR/RID Classification: 3082 Environmentally Hazardous Substance, Liquid, n.o.s.(Citronellol), 9, 11(c), ADR

IATA Classification: Environmentally Hazardous Substance, Liquid, n.o.s.(Citronellol), 9, UN3082.

IMDG Classification: Environmentally Hazardous Substance, Liquid, n.o.s.(Citronellol), 9, UN3082, PGIII

Marine Pollutant: No.

NAERG Number: 171

15. REGULATORY INFORMATION

Chemical Inventories Status:

USA (TSCA): Compliant

European Community (EINECS): Compliant

Canada (DSL): Compliant

Australia (AICS): Compliant

Japan (IEC): Compliant

Korea (KECI/ECL): Compliant

Philippines (PICCS): Compliant

China (SEPA/CICS): Compliant

USA: Federal:

SARA Title III Section 302/304: None.

The information contained in this MSDS relates to this specific product. The information may not be valid if the product is used in combination with any other materials or in any process. It is the user's responsibility to satisfy himself as to the suitability and completeness of this information for his own particular use.

Material Safety Data Sheet

SARA Title III Section 311/312: Yes

SARA Title III Section 313: None.

Hazardous Air Pollutants: None.

USA: States:

None.

International:

16. OTHER INFORMATION

EU Classifications:

Symbol Code(s):

Xi,N

Symbol Phrase(s):

IRRITANT/DANGEROUS FOR THE ENVIRONMENT

Risk Phrase Codes:

R38-43-51/53

Risk Phrases:

Irritating to skin. May cause sensitization by skin contact. Toxic to aquatic organisms, may cause long term adverse effects in the aquatic environment.

Safety Phrase Codes:

S24-37-61

Safety Phrases:

Avoid contact with skin. Wear suitable gloves. Avoid release to the environment. Refer to the Accidental Release Measures and Disposal Considerations sections of the MSDS.

U.S. NPCA/HMIS Hazardous Materials Information System

Health	Flammability	Reactivity	Personal Protection*
1	1	1	C

0 - Minimal Hazard: No significant risk to health.

1 - Slight Hazard: Irritation or minor reversible injury possible.

2 - Moderate Hazard: Temporary or minor injury may occur.

3 - Serious Hazard: Major injury likely unless prompt action is taken and medical treatment is given.

4 - Severe Hazard: Life-threatening, major or permanent damage may result from single or repeated exposures.

* This rating will generally suffice for normal operating conditions. Please note however, that the type of personal protection utilized may change based on specific use conditions (refer to Section 8).

Reason(s) for (Re)issue:

Changed EU classification to environmental hazard.

Technical Contact(s):

Environmental and Regulatory Affairs Dept.
